Experience

Frontend Developer Internship

Jan 2023 - Current

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Freelance Frontend Developer

May 2023 - Current

Self Employed

- Delivered professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript, TypeScript, React and Next.js best practises
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world

Projects

Full Stack E-Commerce | [Website](#) | [GitHub](#)

- Developed a responsive E-Commerce app with features like Google Sign-In, Filtering, Search, Payments, Order Confirmation, and Pagination, while integrating a database for personalized user profiles and an enhanced user experience. Used TypeScript, Next.js, Next-Auth, Axios, Styled Components, and MongoDB for development.

NFT Trading Platform | [Website](#) | [GitHub](#)

- Created an immersive NFT trading platform with a wide range of features including Top Creators, Trending NFTs, Explore Page, Filtering, and Animation. Utilized React, JavaScript, Bootstrap, and HTML to develop the application, ensuring a seamless and visually appealing user experience.

Apple Clone | [Website](#) | [GitHub](#)

- Built a visually stunning Apple clone using TypeScript, CSS, HTML, and React. Achieved responsiveness and attention to detail for an immersive user experience. Employed modern web development practices and collaborated effectively within a team.

E-Portfolio | [Website](#) | [GitHub](#)

- Developed and crafted a personalized and interactive frontend portfolio showcasing my skills and projects. Employed cutting-edge technologies including HTML, JavaScript, Tailwind CSS, React, Framer Motion animations, and EmailJS to create a responsive and visually appealing user experience.
